

Honor Award

Tracy Teacher

Tracy is a fifth grade teacher at the We Are The Best School. She is one of those enthusiastic people who shows a love for her job and her students. Her classroom is a haven for new ideas and strategies. Tracy enjoys the new technologies and works to find lessons and activities to use with the curriculum. The use of new interactive whiteboards has prompted her to research sites and resources that she willingly shares via email with other staff members. She spends a great deal of her own time to make it easier for other teachers in the building.

Additionally, she does the following things which are beyond the scope of her paid position.

- Volunteers to chaperone the school dances
- Volunteers to help with Reading Night
- Helps on Saturdays with cleaning the school
- Assists another teacher with a Friends Play (rehearsals after school)
- Made science activities at home to share with other teachers
- Seeks grants and other funding resources to get materials for the school

Tracy does these things because she loves to help make our school a better place. For these reasons and more, Tracy Teacher is deserving of an Honor Award.
